

Col. W. H. Palmer  
D- 16 July 1858

Morning to the Office  
of the Foreign Vineyard  
Association 190  
Regent Street, as I <sup>suppose</sup>  
have an interview  
on that day with  
Capt. Milne of the  
Admiralty.

I have the honor to  
remain Sir

Your obed<sup>t</sup> Serv<sup>t</sup>

W. H. Palmer

Castellan Villas  
Barnes W.

Tuesday  
16<sup>th</sup> July 1858

Sir  
Abailing myself of  
your permission I enclose  
the Papers relating to  
D<sup>r</sup>. Van Huk's system  
of ventilation for  
your inspection. They  
comprise No. 1. D<sup>r</sup>.  
Grassi report on its  
application to Ships  
No. 2. (attached thereto)  
Le Procès-Verbal de  
reception des appareils  
de ventilation de M<sup>rs</sup>  
Van Huker à l'Hopital

Benjamin signed by  
the Commission appointed  
No. 3. A letter, which  
I have marked & direct  
your attention, in the  
Medical Times written  
by Dr. Lewis Roberts.

I as the representative  
of Dr. VanHooker am  
anxious if possible  
to introduce the System  
into this Country, and  
if the several documents  
enclosed should be  
fortunate enough to

induce you to think  
that the matter is worthy  
of further enquiry I  
shall be happy to attend  
to your wishes. My chief  
objekt in now bringing  
it to your immediate  
attention is the desire  
if possible <sup>to apply it to</sup> "The Great  
Leviathan" of its success  
I have myself no doubt.

Will you oblige me  
by having the several  
papers forwarded  
to me by Thursday
