

Capt. J. L. Lorand  
Feb 18 1858

11, William Str. Hampstead Road, N.W.  
1858th February 18th.

Sir!

Would you kindly give  
your opinion about a new propel-  
ler for ships.

This propeller would sim-  
plify the engine, expend more  
of the work, applied to it, use-  
fully, than paddle or screw, need  
no disconnection, when sail are  
set only, and be immersed  
completely.

If you should like to adopt  
it, I am ready to treat.

Including card and postage  
I am

Yours

G. H. Brunel Esq. respectfully

John L. Lorand.
