

Patent Rivet Works & Lifting Jack Manufactory.

KNOTT MILL IRON WORKS.

Manchester Oct 7 1857

Dear Sir,
Your letter of yesterday
is to hand, but we regret to
say that we find our man
stayed last night untill mid-
night to finish cutting the iron
for the whole lot - we shall
therefore be compelled to finish
and send off the 2000 -
which we expect to be able to
do - early to-morrow (Thursday)
Every attention is being paid
to the making of them, and they
will we feel sure meet with
your approval -
Yours^{tr} W. Shalloway
J. Waithen
